

New Product Announcement

100% Brand New, Top Quality, All-Makes Turbochargers

ONLY AVAILABLE FROM AUTHORIZED DISTRIBUTORS

ULT Powertrain is a Master Distributor for UC POWER. We are excited to introduce a **NEW Turbo** product offering. Over the next few months, we will have available to our distributors a **NEW, NO CORE, HIGH Quality Replacement Turbo** offering for all engine manufacturers.

This is an **AUTHENTIC 100% Made in North America Product!**

	Yes	Yes	No
All Raw Metal & Materials Sourced	Yes	Yes	No
All Casts & Forgings	Yes	No	No
Machining, Grinding, Cutting, & Finishing	Yes	No	No
Assembled & Tested	Yes	No	No

Offshore

Proudly North American

- 60% of raw materials are sourced and obtained from the United States, and the other 40% comes from Canada
- Turbochargers and components are machined, designed, and assembled right here in Canada

Our team sets the bar high, striving to produce the best quality product, using the latest processes and technology available. They are nothing short of impressive. Our team consists of experts from the high-performance OEM sectors of the industry and are very passionate about the quality and the appearance of the product.

Distribution Centers

- Coquitlam** British Columbia

- Quebec City** Quebec
- Winnipeg** Manitoba

Remanufacturing & Distribution Centers

- Edmonton** Alberta
- Mississauga** Ontario - Steering -
- Mississauga** Ontario - Powertrain -
- Moncton** New Brunswick

WE ARE YOUR ONE-STOP DRIVELINE SOURCE SOLUTION!

100% Brand New, Top Quality, All-Makes Turbochargers

905.612.1256 | ULTPOWERTRAIN.COM

- Our team has over 20 years manufacturing experience in the automotive and commercial vehicle industries
- We use the latest in 3D scanning equipment and software to better reverse engineer components with extreme precision
- Our compressor wheels are crafted in our facility to control the highest standard in quality to comply with OE specifications and are available in both cast and billet CAE (*computer aided engineering*)
- We do not compromise in specialty materials as we use Inconel for all our turbine wheels to withstand the extreme heat
- Our turbine housings and bearing housings are casted right here at home to ensure quality, reliability, consistency, and can withstand 2100°F
- Aluminum compressor covers are designed and machined to help increase boost while helping with fuel efficiency at certain RPM levels
- Certain model of turbochargers come with OE specified diaphragm actuators (*if applicable*)
- Dual hydrodynamics journal bearing design while using 360° thrust bearing for added durability
- On any VGT turbochargers - We can supply with or without an electronic actuator (*It will come pre calibrated if you choose the option that includes the electronic actuator*)
- All VGT turbochargers can be built with a premium nitrated chromium super alloy nozzle ring for improved longevity

Best Warranty in North America

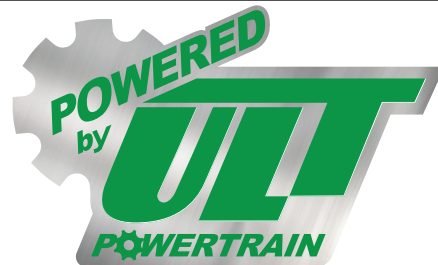

2 YEARS WARRANTY

- 2-year unlimited mileage (*see warranty policy for details*)

- 3-year unlimited mileage warranty if you buy the turbo and actuator together (*actuator installation & calibration included*)

3 YEARS WARRANTY
